REP Diesel Particulate Filters are warranted to be free from defects in materials and workmanship for 2 Years or 50,000 miles (or 2 Year Unlimited Miles for HD DPFs & DOCs), subject to the warning set forth below: An improperly tuned engine can damage a diesel particulate filter (DPF). Be sure the engine is properly tuned to manufacturer's specifications and that emission control equipment is operating within original equipment specifications before installing this new DPF. If the new DPF is being used to replace a failed DPF, it is possible the same problem, if not corrected, will cause damage to this new DPF. This DPF is intended for use on non-modified vehicles only. Systems with modified exhaust systems or high performance ECM calibrations or tunes may cause this product to be damaged. Failure to comply with these instructions will void the product warranty. Not Legal for Sale in the State of California*. *This product may not be distributed, offered for sale, or advertised in or into the State of California. This product may not be installed in to any vehicle that is used in California and is certified as emission compliant by the California Air Resources Board (CARB). CARB has not issued any Executive Orders or exemptions for this product.

NOTICE: WARRANTY REGISTRATION FORM MUST BE SUBMITTED WITHIN 30 DAYS OF PURCHASE
